Charlie Capozzoli Smashes NCAA Record

East Lansing, Mich., Nov. 24— Running in his first national championship race since he established himself as one of America's all-time greats in a startling 3-mile race in London, little Charles Capozzoli smashed all records for the 4-mile NCAA cross country run. In 40 degree weather and a 9-mile wind, the young Olympian's 19:36.7 broke Bob Black's NCAA mark of 19:52.3 as well as Herb Semper's 20:09.5 in 1951, first year for this new course.

Runner-up three times in national track events but never a champion, Capozzoli was content to follow an easy pace by Iowa's Rich Ferguson, passing the mile in 4:47. Then Capozzoli moved out in front and was never headed. He clocked 9:50.5 for two miles and 14:46 for three.

Capozzoli was given strong competition by Ray Osterhout, Syracuse junior who placed third last year. Although failing to match Capozzoli's strong closing drive, Osterhout also broke all former records for the race.

Jim Kepford, former holder of the new-course record of 20:06.6, led his Michigan State teammates to the title with a fine 19:54 for third place. Coming out on top in a close race for fourth place was Jack Wellman of the second place Indiana team. Wellman (33d last year), nosed out Walter of MSC (30th in 1950), Ferguson (20th last year), the Iowa soph who ran a 9:08.9 2-mile last year, plus Bob Hollen of Penn State and Jim Lambert of Indiana. All eight men broke Kepford's old course record.

Michigan State won the team title narrowly from Indiana, 65 to 68. Iowa, led by Ferguson and Ted Wheeler, the tall Negro middle-distance star, was third with 103, to 110 to Penn State and Syracuse, the 1950 and 1951 champs. For Michigan State, iwas the third title in five years. They were second last year. Miami U. of Ohio (145), San Diego State (181), Drake (194), Wisconsin (212), and North Carolina State (234) followed. Absent from the race was one of the favored teams, Kansas, led by Wes Santee.

1	Charles Capozzoli	Georgetown '53	19:36.7
2	Ray Osterhout	Syracuse '54	19:50.0
3	James Kepford	Michigan State '53	19:54.0
4	Jack Wellman	Indiana '54	19:59.0
5	John Walter	Michigan State '53	19:59.1
6	Richard Ferguson	Iowa '55	19:59.2
7	Robert Hollen	Penn State '54	20:00
8	James Lambert	Indiana '55	20:00.1
9	William Sawyer	No. Carolina State '54	20:11.0
10	Jack Heinsmann	Miami '53	20:13.0

36	Bob Fine	Syracuse '53	20:52.0
37	George Branam	Indiana '53	20:53.0
38	Joseph Vargo	Miami '53	20:55.0
39	Lamont Smith	Penn State '55	20:58.0
40	Richard Dolan	Union '53	20:58.1
41	Thomas Sturak	San Diego State '53	20:59.0
42	Benny Wilson	San Diego State '53	21:00.0
43	Joseph Brooks	San Diego State '53	21:00.1
44	Tom Wright	Wheaton '55	21:04.0
45	Tom Coulter	Syracuse '54	21:04.1
46	Eugene Sultze	Wisconsin '55	21:05.0
47	Walter Hansen	Miami '55	21:06.0
48	Donald Kelly	Miami '55	21:09.0

Charlie Capozzoli, NCAA and IC4A cross country champion, shown as he set the U.S. National 3-mile record of 13:51.8 in the British Empire vs. U.S. meet at London, August 4. Doug Pirie and Frank Sando trail. (Courtesy Athletics World)

Fred Wilt's Finish Wins AAU X-Country

Buffalo, N. Y. Nov. 30--Fred Wilt won his second AAU cross country crown when he outkicked Olympic steeplechase champion Horace Ashenfelter and young Ray Osterhaut.

Slipping and slithering over a snow-packed treacherous course, the two-time Olympian ran the 10,000 meter Delaware Park layout in 32:31. Wilt beat fellow FBI agent Ashenfelter by a second and Osterhaut by three seconds.

It was strictly a three man race with Bill Ashenfelter, Horace's younger brother and defending champion, a badly beaten fourth. Veteran Curt Stone, the only other big name in the contest, was a distant fifth.

John Trent's six place completed a great New York Athletic Club victory. The NYAC had all of the first six finishers, with the exception of Syracuse's Osterhaut, and totalled only 18 points. Syracuse tallied 37 and was followed by Downtown Y, 78; Buffalo State, 80; and LeMoyne, 112.

Wilt, Nip Ashenfelter and Osterhaut went to the front 200 yards out. The two veterans swapped the lead back and forth with Osterhaut, a 21-year-old junior, always a close third and Bill Ash, fourth, and losing ground.

Taking off 150 yards from the tape, the 32-year-old Wilt kicked home a winner over his two pursuers.

Forty-nine of the 50 entrants finished, despite snow, ice and water.

Wilt's second AAU win came three years after his first title. Last year he was second to surprise winner Bill Ashenfelter, who wasn't in top shape this time because of business commitments. Complete results:

1,	Fred Wilt, NYAC	32:31	26,	Jack Foster, DY	38:45
2,	H. Ashenfelter, NYAC	32:32	27,	Arthur Ahr, StTchrs	38:46
3,	Ray Osterhaut, Syr.	32:34	28,	George Barton, ST	38:53

World Ranking

TRACK & FIELD NEWS 6th annual world ranking has been compiled by D.H.Potts & R.L.Quercetani

Ranking is not based on the best mark for each man nor is it an attempt to rank the men in the order in which the compilers thought they would finish in an "idealized" contest. These factors are contributory but not decisive. The principle factors are: (1) major honors won; (2) win-loss record; (3) series of marks.

Abbreviations used:
y - mark made at English distance
w - mark made with wind
t - mark made around turn
m - mark made at English distance

100 Yards & 100 Meters

1.LINDY REMIGINO (USA-Manhattan)
-- 3rd vs.Army
9.7y 1st Metro.IC

On Your Marks

By Bert Nelson

World Sports, official magazine of the British Olympic Association, named Emil Zatopek as the world's no. I "sportsman". Bob Mathias was second, Marjorie Jackson third, and Winston Churchill, a British horse owner, sixth.

* * *

The Pan American Games have been scheduled for Mexico City in February or March,'55.

* * *

New York City has gained two Olympic champs with George Rhoden doing post graduate work at NYU and Mal Whitfield, out of the Air Force, residing there.

* * *

Javelinist Bud Held has volunteered for foreign service in the missionary work of the Presbyterian Church and has been assigned to Agape Camp in north Italy.

* * *

Joseph J. Yancey, Pioneer Club coach, received the 1952 James J. Hoey award for Interracial Justice.

* * *

Bob Mathias has said he is definitely out of the 1956 Olympic decathlon, although he may try to compete in the discus or hurdles at Melbourne.

YOU CAN HELP

Track & Field News to build a picture file of the 1952 Olympics. We will be very grateful for black and white, or colored pictures or slides, of the Games, either from our tour members, or others.

TRACK TALK

by Cordner Nelson

Do any of you have information about movies of the Olympic Games? Or, while we're at it, of any big track meets? I have had requests for information as to where such films may be purchased or rented, and I am very interested myself. I'll compile any worthwhile information received and publish it. Perhaps our combined efforts will produce something of service to all of us.

THE EUROPEAN STRIDE. I don't intend to turn TRACK & FIELD NEWS into a journal on training methods, but I have something I must get off my chest. With apologies to readers who don't like training hints, here goes:

I am very disappointed in the progress of American distance runners. When I published the series of articles on European training methods in 1949, I expected American distance runners to begin a dynamic improvement. Instead, the only real improvement has come from Fred Wilt (who gave me most of the material for the articles), the runners of coaches Chick Werner and Bill Easton (who were already using similar methods), and a few — a very few — isolated runners who made changes with or without the help of their coaches (runners like Bob McMillen, Charles Capozzoli, John Twomey, and Warren Druetzler).

On the other hand, the articles in TRACK & FIELD NEWS started a revolution in Great Britain. British athletic journals published reprints and rehashes. British distance runners began to improve almost immediately. Now the British distance runners can defeat any nation in the world on a team basis. The same thing is beginning to happen in other English speaking countries — except the USA.

It is a shame, because we have more material than Britain. At the risk of losing some friends, I blame this sluggishness on some of our college coaches.

Some of our coaches frankly do not believe in the European ideas, and their runners show it. I could name some extremely outstanding prospects who made little of no improvement in their last two years of college. Of course, their coaches will point to the great improvement they made in their sophomore year, but that should not prevent them from improving afterwards. Unless these coaches change their viewpoint they'll find themselves shut out in most big distance races of the future. Because enough progressive coaches will adopt the new methods, and soon the would-be distance runners will go to those progressive coaches in preference to the others. I know, already, of one big-time coach who is about to lose his source of supply of distance runners because they feel he has not helped them enough.

A new spark of interest was ignited by my mention of Capozzoli's startling change in the meet against the British Empire, and questions arose. I don't intend to take up the whole subject again, but I would like to describe the distance stride and mention the other points.

Best for races of half a mile and shorter, is the long stretching stride, where the runner coasts for several inches at the end of each stride. But in distance running, the primary function of technique is to conserve energy. That long middle-distance stride wastes energy in two ways: (1) The forward-reaching leg, coasting down to the track, is actually attempting to stop the forward motion of the runner. It is the same as if a child, coasting in a wagon, should put his foot out ahead of him, against the approaching ground. The child in the wagon reaches out only a little way ahead and immediately pulls back with his foot. (2) That long stride also requires something of a leap off the rear foot, which builds up fatigue in the legs.

The European stride is short, quick, easy, and smooth. It is economical because it keeps the body moving at a constant speed, whereas the "half-mile" stride has three different speeds for each step. The step starts with a lunging leap. This is followed by a slower coasting period, gradually slowing. Then comes the halting jar of the outthrust leg. It is a matter of fact that, although a runner must take many more steps with the new stride, he can keep up with the old-style runner with much less expenditure of energy. I don't think Zatopek could finish in the first ten among the world's best 10,000 meter runners of this year if he used the old style stride.

The other points emphasized in the European way of distance training are: the proper psychological attitude, training on soft surfaces, and speed play. Only the latter shall be discussed here, and only briefly.

Speed play may be called ins and outs, in principle. The thing to remember is to run faster, run farther, but don't get tired. This is done by running fast for, say, 440 yards, then slow, then fast, and repeating indefinitely. By using this method only, with no imaginative variations, Zatopek developed enough speed to outsprint the greatest field of 5,000 meter runners ever assembled. At the same time he was building up enough endurance to smash the greatest marathon field ever assembled, the same week! In the old American system, the speed for 5,000 meters would be built up by training for a mile, leaving the runner short of endurance. Or the marathon endurance would be built up with long slow jogs, leaving the runner so slow he could not keep up with Zatopek for half of the marathon.

In the Olympic Games, not one old-style runner placed in any race longer than Whitfield's 800. Sometime it will be the same in American races. It's up to you coaches and runners.

SÖTER'S 6'7"7/8 IS SECOND BEST EVER IN EUROPEAN HISTORY

One of the outstanding late season performers in Europe was Ion Söter, the Rumanian highjumper, who cleared 2.03 m (6'7"7/8) at Cluj on Oct.6 for the second best mark in European history. He had previously jumped 2.00 m (6'6"3/4) or higher at least 5 times during the 1952 season - a standard hitherto achieved only by the European record holder himself (Kalevi Kotkas of Finland).

Jiri Skobla's marks in October were as follows: 55'2"1/4 on Oct.4, 56'2" at Prague on Oct.11, 53'11"1/4 on Oct.23, 54'11" on Oct. 26 and 55'1"3/8 on Oct.27. His series on the record day at Prague was: 56'2", 56'1"1/4, 55'1"3/8, 54'6" 3/4, 54'6"3/4, 55'7"3/8.

In USSR, Boris Matveyev broke Lipp's national record in the discus by throwing 173'7"1/8 at Ashkhabad on Oct. 19. Olympic 100m finalist Vladimir Sukharyev ran his distance in 10.5 during the same meet.

Competing at Tbilisi (Tiflis) on Oct.25, Heino Lipp put the shot 54'8"1/4.

In Hungary six men bettered 31 minutes for 10000 meters in the course of a race at Nyiregyhaza on Oct.26. The winner - 1500m man Sándor Garay - did 30:19.1.

REPORT FROM AUSTRALIA

by Joe Galli

Watch John Landy, Melbourne distance runner, as a potential world record beater from 1500 to 5000 meters in the years to come.

Only 22, and barely a year out of the mediocre school of times, Landy demonstrated his possibilities when he casually set a new Aussie 3-mile record of 14 minutes at Melbourne on November 1. He shattered Les Perry's (Olympic 5000m 6th placer) record by 16.4sec. It followed a race of his over 880 yards, and the track was rather cut up because of rain, and the 48 races that preceded the 3-mile.

Landy covered the first mile in 4:34, 2 miles in 9:17. With Les Perry back in the longer events soon, they should get the record down around 13:50. Landy, though, really looks like he can go on for a 4:01 mile, around 8:40 for 2 miles, and 13:30 for three. Not yet in top condition, largely due to university exams, he's still some years away from peak. He has a wonderful temperament, and can get out front and set a furious pace if there's no-one to help.

In December 1950, Landy hadn't run the mile inside 4:31. Then he started punishing work under philosopher-coach Percy Cerutty, and by late 1951 had posted 4:14.6. In Britain before the Olympics, he chopped his mile time down to 4:10, then established himself as world's all-time 9th fastest over 2 miles with an authentic 8:54 at Middlesboro. He failed in the Olympics but watch for him in '56.

Results: Sydney, Oct. 18— Mile- Bailey (4:19.8)

Melbourne, Oct. 25— Mile- Landy (4:17) 220LH-Doubleday (24.2) HSJ- Allen Stevens (48'3½") (age 22).

Sydney, Oct. 25— (heavy rain) 2-mile- Lawrence(9:33.6) 2, Pierce (9:35) LH- Taylor (24.3).

Brisbane, Oct. 25— 400m- Butterfield (49.1);2,Winston (49.2);3, Hansen (49.4); 4, Thaggard (49.4).

Melbourne, Nov. 8— John Landy broke his second Australian record, covering 2000m in 5:23.6. He didn't push himself, because he didn't really want to run — University exams. Beat the old mark by 10.4sec., but 3.2sec. outside time put up by Don Macmillan against Slykhuis recently.

Suprise on same program was Ray Weinberg, who beat his on national 110m hurdles record of 14.6 by 3/10ths. Weinberg hadn't previously competed since returning from the Olympics, where he was a disapoointing last in the final. He had done little training, and was 20 pounds over normal racing weight. Now he is raring to go, although he will compete every two weeks only, because of duties at his hotel in Kerang, 180 miles from Melbourne.

Ray was troubled before and during Olympics with eye ulcer, and on return home was successfully operated on. Not many people knew about this, but I know he was having treatment before he left Australia. He told me that in Glasgow after the Games his vision was just a blur, and although he tried to run the hurdles it was impossible.

Den Doubleday, second in yesterday's 110H in 14.4, also inside old record, which Weinberg set in 1948.

Melbourne, Nov. 15— Mile- Landy (4:14.8) LH- Doubleday (23.9) HSJ- Stevens (48'5½").

JUNGWIRTH RUNS 1000m IN 2:21.2, 800m IN 1:48.7

As reported in the October issue, Emil Zátopek broke 3 world records on Oct.26. This happened on the famous track at Stará-Boleslav Houstka, in Czechoslovakia. His time for 25,000 meters was actually 10 seconds faster than first reported, namely 1 hour 19 minutes 11.8 seconds.

The Stará Boleslav track is only 363.80 meters. In the same meet Stanislav Jungwirth ran a surprising 1:48.7 for 800 meters, after covering the first half in 53 seconds. The runner-up, Zvolenský, did 1:52.1.

The following day Jungwirth returned to that same track and broke the world record for 1000 meters, doing 2:21.2. This is 1/10th under Åberg's recent mark at Copenhagen. Intermediate times for Jungwirth were: 400m 56 secs., 800m 1:52.1.

After setting his 3 world records, Zátopek had told the local fans that Jungwirth could be expected to do better than Emil himself - sooner or later.

WHERE YOU'LL SEE 1956 OLYMPICS

by Joe Galli

You're looking at winning design for Melbourne's 1956 Olympic Stadium, superimposed on picture of site — but not true to scale. Stadium will accommodate 125,000 spectators (50,000 seated), and will be well equipped.

Arena is 615' by 490'. Construction may start in about six months, and if all goes well (no cinch in Aussie) stadium should be completed in 1955. Cost is estimated at 1,100,000 pounds Australian.

Site is pretty Princess Park, just 2 miles north of City's center. It is excellently served by all forms of public transport. There are ample parks and enclosed grounds for training purposes, and a number will probably be brought up to scratch for track men.

Competitors will be housed either in a Village of 600 new homes about 5 miles from stadium in lush suburb of Heidelberg, or at Melbourne University, barely a 440yds dash from the stadium.

Seen Through European Eyes

by R.L.Quercetani

THE ACHILLES HEEL - Despite the giant progress made by European athletes in many events, the Old Continent is still looking for sprinters, 110mh hurdlers and broadjumpers who may be worthy of the name on current world standards. True, the short races do not seem to be a prime favorite with European fans, yet it was discouraging, at the Helsinki Olympics, to see how poorly represented were countries like Holland, Germany and Britain, once the cradles of European sprint talent. The US could surely field a dozen sprinters all capable of beating the cream of the present European crop. Same deficiency exists in the high hurdles and broadjump, events in which sprinting capabilities undoubtedly play a prominent rôle. Oddly enough, Hungary's frail-legged Földessy, Olympic bronze medalist in the broadjump, is now Europe's best man in this event, even though his average marks are 24' or so.

Talent in these events is often uncovered overnight though. In fact I'll bet that we are likely to see a new Jonath or a new Osendarp, maybe also a new Finlay and - who knows - even a new Long, by the time the 1954 European Championships knock at the door.

M.S. - The Russians have a "Master of Sports" degree for their good performers. The qualifying standards ("norma") for track and field events are as follows: 100m 10.6, 200m (turn) 21.6, 400m 48.5, 800m 1:53.0, 1500m 3:54.0, 5000m 14:40.0, 10000m 31:00.0, 3000mSt. 9:18.0, 110mh 14.7, 400mh 53.6, HJ 6'4"3/4, PV 13'7"3/8, BJ 24'3"3/8, HSJ 49'2"1/2, SP 50'6"1/4, DT 160'9"1/8, HT 177'2", JT 226'4"1/2, Decathlon 7,100 pts (old scoring system). A quick count shows that about 100 Russians equaled or bettered these marks in 1952. In the same season the U.S. had about 325 ...M.S.'s.

These Russian M.S.'s usually contribute coaching articles and meet accounts to USSR papers, hold lectures and act as proctors with the younger track stars.

MORE FIGURES IN THE OFFING - There is an ever increasing demand for World and European year lists of the 100 best performers in each event. This is of course "some" request, yet we'll do our best to quench the petitioners' thirst in a not-too-distant future. We hate to see that the current 50 best lists fail to do justice to a lot of good performers.

Let's consider some of the figures for the season just past. In the hammer throw - still a little known event in many non-European countries - over a 100 men bettered 50m (164' 1/2) in 1952. It takes a 175-plus mark to make the usual 50 best list! In the 1500 meters, a 3:52 mark (same as a 4:11.8 mile) is what you need to be among the selected 50. This means that the great Paavo Nurmi would not - at least in theory - make the list, off his best-ever mark, 3:52.6! I have no less than 118 performers at 3:55.0 or better for 1952. The new IAAF scoring table gives 1,000 points for a 3:55.0 mark, same as for a 4:15.0 mile.

ROSS WINS CANADIAN RACE

Hamilton, Ontario, Oct. 18- Browning Ross, two-time American Olympian, won the fastest "Around-the-Bay" race since the record 1:46:15 was set in 1912. Ross won the 58-year-old race of 19 miles 168 yards in 1:48:25. Selwyn Jones of Hamilton, who led for 15 miles, was second in 1:50:30;3, John Lafferty;4, John Kelley;5,Bill Husband;6, Walt Berger.

JAPANESE RESULTS

Results of Japanese meets during a tour by Olympians Adelmar da Silva, Herb McKenley, Herbert Schade, and Marjorie Jackson: (all meters)

Yokohama, Sep. 21—
McKenley 10.6 & 47.1
Schade 8:34.0 (3000m)
Silva 52'

Niigata, Sep. 23—
McKenley 10.7 & 47.5
Schade 8:31.4; Silva 49'7 5/8"

Tokyo, Sep. 25—
McKenley 10.5 & 46.9
Schade 8:32.8; Silva 51'6"

Osaka, Sep. 28—
McKenley 10.8 & 49.2
Silva 51'2 1/8"

Osaka, Oct. 4 & 5—
All Japan Track & Field Meet:
McKenley 10.5, 21.3, 46.8
Schade 14:32.0
BJ-Tajima(24'1");Enokihara (23'7 7/8").
HSJ- Da Silva (51'4 1/8") 2,Sagawa(50'4 3/4);3,Kogake (49'8 7/8"). PV-Sawada(13'5.4
Women's 100- Jackson (11.4-WR)
200m- Jackson (24.2)

Morioka, Oct. 12—
McKenley 10.8 & 47.4
Schade (14:46.6). BJ-Tajima (23'6 5/8). HSJ- IIzuro(50'10¼
Women's: Jackson 11.7 & 24.6

ARMY WINS HEPTAGONAL C-C

Van Cortland Park, NY, Nov. 7—

Lewis Olive, 22-year-old Kentucky Negro and former University of California frosh, led Army to its sixth straight Heptagonal cross country title. Taking over after Walt Molineux had led for three miles, Olive came home in the good time of 25:43.5.

1,	Olive, Army	25:43.5
2,	Maxwell, Prince.	25:56
3,	Day, Army	26:02
4,	Molineux, Brown	26:22
5,	Healy, Army	26:35
6,	Wray, Army	26:38
7,	Morrissey, Dart.	26:41
8,	Gerry, Harvard	26:46
9,	Neu, Army	26:50
10,	Albers, Cornell	26:51

Team: Army (24); Cornell (89)

DUNCAN CLARK THROWS 181'3"

Auckland, NZ, Nov. 8—

Duncan Clark threw the hammer 181'3" in an exhibition.

IC4A to Capozzoli

Van Cortland Park, NY, Nov. 17— Charlie Capozzoli of Georgetown and the 1952 Olympic team shattered all records for this 5-mile course in running to victory in the IC4A championships.

Capozzoli, whose rise to greatness came with dramatic suddenness last summer in London, toured the course in 24:30.1, 24 seconds under the record run of last year by Dick Shea. His time was more than a minute faster than he ran last year in placing 3d.

In second place was Ray Osterhout, 200 yards behind. Last year, Osterhout beat Capozzoli for second by nine seconds.

Michigan State's Big Ten championship team won the team title again after being absent last year. MSC's total was 46 points.

(Due to an error, complete results will be delayed until next issue.)

SANTEE WINS BIG 7 C-C RUN

Lawrence, Kan., Nov. 15— Wes Santee led Kansas to its sixth consecutive Big 7 cross country title with an easy victory over the 3-mile course. This was the first year since 1929 that the Big 7 race has been over the country instead of on the track.

Santee, NCAA 5000 meter champion and AAU 1500 meter champ, set the pace all the way, pulling away from Bruce Drummond, promising Oklahoma runner. Warren Rouse of Oklahoma, third in the NCAA 5000, finished 7th today.

The race was run over a dry course in 72 degree weather. Santee's intermediate times were 2:28, 4:58, 7:21, 10:08 and 12:45 at the half mile posts.

1,	Santee, Kansas	15:08.1
2,	Drummond, Okla.	15:28
3,	Barlow, Colorado	15:45
4,	Palmquist, Kansas	15:44
5,	Dalzell, Kansas	15:54.5
	McVay, Missouri	15:54.5
7,	Rouse, Oklahoma	16:06
8,	Creighton, Colo.	16:09
9,	Scott, Nebraska	16:13.5
10,	Koby, Kansas	16:18

AAU 20,000 METER WALK

Providence, R.I., Oct. 12—

1,	Henry Laskau	1:37:43.4
2,	John Deni	1:44:47
3,	W.E. Stewart	1:49:57
4,	Carl Kurr	1:52:17
5,	Bruce MacDonald	1:53:07
6,	George Casper	1:54:23

AAU 25,000 METER WALK

Chicago, Aug. 31—

1,	Adolf Weinacker	2:21:05.
2,	John Deni	2:22:45
3,	Jimmy Sidun	2:23:58
4,	Bronius Koturakis	2:26:45
5,	Frank Jerry	2:33:25
6,	John Dick	2:33:39

AAU 30,000 METER WALK

Atlantic City, NJ, Oct. 19—

1,	John Deni	2:52:46
2,	Carl Kurr	3:00:19
3,	Leo Sjögren	3:01:18
4,	W.E. Stewart	3:08:39
5,	Rudolph Haluza	3:09:16
6,	George Casper	3:09:45
